Acquisition Information

Acquired URL	https://certo.acquisizioniforensi.com/demo/
Domain	certo.acquisizioniforensi.com
Remote Server IP	77.37.83.187
Acquisition Code	2e089745-bd9e-4561-9e3d-1696768504d0

Server and content delivery network

Acquired host	certo.acquisizioniforensi.com
Contacted address	77.37.83.187
	observed by the browser during the connection
Content delivery network (CDN)	Hostinger hCDN — conclusive identification
Edge node	srv-edge4
Origin server	not observable from this capture point
	this is precisely what an interposed CDN conceals: the contacted address is the edge node, not the origin server
DNS A records	77.37.83.145, 91.108.98.80
DNS AAAA records	2a02:4780:32:29f:d417:3348:b9e4:188e, 2a02:4780:23:be6b:a9fc:4c40:4731:4d12
DNS records measured at	2026-09-28T15:34:39.060Z
DNS discrepancy	the contacted address does not appear among the A records: the name resolves to a rotating set of addresses, and the two measurements were taken at different moments

Signals detected

- header x-hcdn-request-id: c9f8e7dc73402d834ff11d4b5f692c2b-srv-edge4
- header x-hcdn-cache-status: DYNAMIC
- header x-hcdn-upstream-rt: 0.075
- server: hcdn

The contacted address is a datum observed during the capture and can be verified in network/network.har (serverIPAddress field). The DNS records and the signals can be verified in network/dns-lookup.txt and network/http-headers.txt.

Acquired Pages (1)

One row per page actually acquired (with a dedicated pages/NNN_domain_path/ sub-directory); the same URL visited multiple times is listed only once. Hybrid strategy: *viewport* and *DOM* captured in real time at the moment of the visit; *fullpage* captured post-hoc at the end of the acquisition (temporal drift noted for each page).
